RE: U.S. Patent Application Serial Number 09/754,826
Use Of Passive Myostatin Immunization
U/M Docket Z00173

Attached are **Declaration/Power of Attorney and Assignment** documents for your recently filed patent application. The Assignment informs the Patent Office that the University is the owner of the patent, while the Declaration says that you are one of the true inventors of the technology being patented.

Please sign and date the documents, making sure that your signature matches the typed name. If the address shown is not your current home address, please cross it out, write in the new one and initial it on both documents. **The Assignment must be notarized.**

Then route to your fellow inventor at the University for signature. When both of you have signed the documents, return them to me.

Thank you for your help.
